

2013 Caltech Space Challenge Application Instructions

The following items are to be submitted electronically as a **single PDF document**.

1.) In one page or less (12 point font, single space) please explain the following:

- Why you are interested in the Caltech Space Challenge?
- How will participation benefit you?
- Given your background, what can you contribute to a multi-disciplinary team and why do you think you are a good team member candidate?

2.) Given your background, what aspect of mission design are you most interested in?

3.) Short curriculum vitae (Please include any relevant technical software you have proficiency in.)

4.) Artists only: please submit a sample (sciencey) drawing

One letter of recommendation from an advisor or supervisor will also be required. Directions for the letter from the advisor will be provided when the application is started online.

Note: The submission page may not be up. Please begin requesting letters of recommendation and the rest of the application now. We anticipate the submission page will be up in early-mid October.
